On average, Granite Slabs are estimated to be 74x116. However, this measurement will vary on EVERY slab. Some could be smaller, while others might be larger.

Carstin Brands, at its sole discretion, reserves the right to purchase the above colors from other manufacturers with the same color patterns and similar quality. This could be done in the event of material backorders, shipping delays, competitive pricing, price increases, or other unforeseen issues affecting, or possibly affecting, our business, or the business of our dealers. This would be done without notification to the dealer in efforts to minimize disruptions or the need for further involvement of our dealers.
